Snapshot Report

NCES 2003-532NV8

The writing assessment of the National Assessment of Educational Progress (NAEP) measures narrative, informative, and persuasive writing–three purposes identified in the NAEP framework. The NAEP writing scale ranges from 0 to 300.

Overall Writing Results for Nevada

- The average scale score for eighth-grade students in Nevada was 137. This was not found to be significantly different¹ from the average score (140) in 1998.
- Nevada's average score (137) was lower than that of the nation's public schools (152).
- Students' average scale scores in Nevada were higher than those in 4 jurisdictions², not significantly different from those in 2 jurisdictions, and lower than those in 40 jurisdictions.
- The percentage of students who performed at or above the NAEP *Proficient* level was 16 percent. This percentage was not found to be significantly different from 1998 (17).

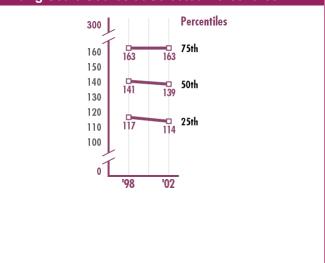

Performance of NAEP Reporting Groups in Nevada						
	Percentage	Average	Percentage of students at			
Reporting groups	of students	Score	Below Basic	Basic	Proficient	Advanced
Male	52	125 ↓	37	55	8	#
Female	48	151	13	62	24	1
White	60	143	19	61	19	1
Black	10	128	33	59	8	#
Hispanic	22	123	39	54	7	#
Asian/Pacific Islander	7	149	18	54	27	1
American Indian/Alaska Native	1					
Free/reduced-priced school lunch						
Eligible	28	121	41	52	7	#
Not eligible	62	144	19	62	18	1
Information not available	9	143	21	56	22	#

Average Score Gaps Between Selected Groups

- Female students in Nevada had an average score that was higher than that of male students (26 points). This performance gap was wider than that of 1998 (19 points).
- White students had an average score that was higher than that of Black students (15 points). This performance gap was not significantly different from that of 1998 (13 points).
- White students had an average score that was higher than that of Hispanic students (20 points). This performance gap was not significantly different from that of 1998 (22 points).
- Students who were not eligible for free/reduced-price school lunch had an average score that was higher than that of students who were eligible (23 points). This performance gap was not significantly different from that of 1998 (21 points).

- # Percentage rounds to zero.
- --- Reporting standards not met; sample size insufficient to permit a reliable estimate.
- * Significantly different from 2002.
- † Statistically significantly higher than 1998.
- ↓ Statistically significantly lower than 1998.
- ¹ Comparisons (higher/lower/not different) are based on statistical tests. The .05 level was used for testing statistical significance.
- ² "Jurisdictions" includes participating states and other jurisdictions (such as Guam or the District of Columbia).

NOTE: Detail may not sum to totals because of rounding. Score gaps are calculated based on differences between unrounded average scale scores. Performance changes across years should be interpreted in the context of changes in rates of exclusion of special-needs students, which occurred in some states. See *The Nation's Report Card: Writing 2002* for additional information.
